Manufactured
in the UK

MGB
Easy Handling

Shifting goods from a van to your door, or around your premises, just got easier than ever. Take a load off your mind with the **GOODSMAN 300**. With a capacity of up to 300kg this electric sack truck makes light work of moving awkward items. It's safe and easy to use, and it's built to handle even the most demanding tasks.

- Ergonomically designed tiller lever is easy to use - even in your gloves
- Forward and reverse drive
- 2 speed operation for safe and easy transit over even the roughest terrains
- Torque assisted movement to transit position
- On-vehicle charging
- Battery charge monitor
- Right and left handed drive
- Lightweight
- 1 year return to base limited warranty

Suitable for all kinds of work the weather protected **GOODSMAN 300** is ideal for indoor and outside use. You can forget fatigue because you'll be driving, not pushing that load.

GoodsMan 300

GoodsMan 100

Take the weight and the worry out of everyday jobs with this versatile and nimble powered sack truck. Moving the water bottles, computers and copier paper becomes so much simpler with power at your fingertips. With all the features of the Goodsman 300 this lightweight truck is ideal for loads of up to 100kgs. Intuitive and easy to use it will make a difference around your home or office, every day.

The answer to one of life's everyday problems! With the fully patented **BINBOY 100** you can move a laden 90kg / 240ltr wheelle bin over even poor terrain with complete ease and safety. There's an adaptor too, allowing you to shift all sorts of other loads. Suitable for domestic and commercial work

The **BINBOY 100** is a life changer!

- Electric powered
- Forward & reverse gears
- Domestic recharging kit
- Up to 1 hour constant use
- Lightweight
- Convenient safety footrest
- Detachable lifting plate available separately
- 1 year return to base limited warranty

BinBoy 100

B

Bespoke

If you've got a really weighty problem share the load with us. For specific applications we can custom - design tailored solutions specifically for you. Or, we can retro fit to an existing product to match exactly your requirements.

Ideal use on

Grass, Gravel, Slopes and Rough Terrain over distances

MGB
Easy Handling

MGB Easy Handling

Driven by innovation, MGB developed the **GOODSMAN** and **BINBOY** ranges to take the strain out of everyday manual handling tasks. Ideally suited to both domestic and commercial environments our amazingly versatile electric powered sack trucks have been designed and developed in the UK. They are built in our Norfolk factory, using uniquely designed and engineered components.

INNOVATION

We pride ourselves on innovative design and engineering. Our approach, using up to date design techniques and addressing common material handling problems to meet our aims - to help you, by taking the strain out of manual handling.

The unique and highly ergonomically designed handset can be used with your fingertips and even when wearing gloves.

DURABILITY

Our extensive design, test and development ensure a service life beyond expectations.

CE tested machinery for your knowledge of soundness.

PERFORMANCE

All our trucks are tuned for optimum efficiency and deliver very surprising power for their size. They safely maintain speeds when passing from a good surface to uneven ground, or even up and down an incline and will not run-away on slopes, ensuring complete control in all work.

AFTER SALES SUPPORT

We're here to help. We can provide drive system variants to enhance performance as well as hardware upgrades. Also available are on-vehicle charging and docking kits, to deliver an "always ready" machine.

We also provide periodic service packages for your peace of mind keeping your investment at top notch performance levels.
